National Federation of Demolition Contractors
Raising Industry Standards for 80 years

EIGHTY YEARS

<https://lamooredemolition.com/>

Office and site personnel were always helpful and easy to deal with and there were no issues on site with the works.

I would have no issues in using LA Moore again.

This has been a very well managed and delivered demolition. The works were delivered safely, and the programme delivered flexibly to suit changes as the demolition progressed and unknowns about the construction. Feedback from local residents, councillors and our internal project team were very positive, and no complaints were received about the demolition activities.

LA Moore Ltd were very responsive and always responded to any queries promptly.

In all, it was a very successful project delivery by all the team.

The L.A. Moore staff made the demolition & associated works a very easy and straightforward job. The team on site were all very helpful & compliant and the office staff were very prompt & thorough with all their assistance.

'First time of using LA Moore, however, I know they have a long list of projects completed with us. From the outset I was very impressed. The works were well managed, organised and ticked all the boxes from a safety and environmental aspect. Great Demo contractor and will highly recommend for future schemes.'

The management team has been extremely well responsive, working as a team to respond to any queries or requirements we as client had. The site team had an outstanding performance, working on a highly regulated environment, being compliant and delivering scope of works with high quality standards to time and budget.

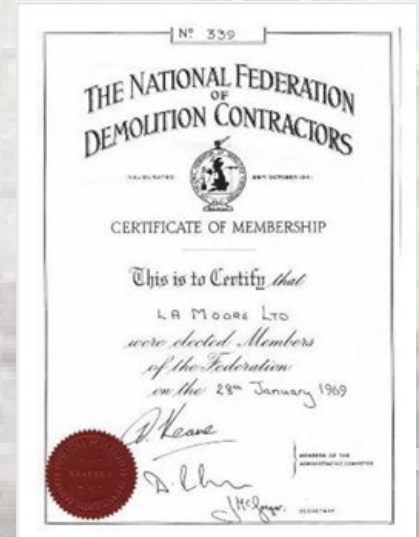

Welcome to the History of L A Moore Ltd,

Founded by Les Moore on 16th August 1952, the company began its journey as 'L A Moore Builders Limited,' focusing primarily on building operations. The 1960s marked a significant turning point for the firm, as it swiftly broadened its scope by acquiring heavy plant machinery and embarking on sub-contract groundworks and plant hire. This expansion not only enhanced our operational capabilities but also positioned us as a key player in a rapidly evolving industry.

In 1969, L A Moore Ltd achieved a notable milestone by becoming a member of 'The National Federation of Demolition Contractors,' reinforcing our commitment to excellence within the demolition sector. The subsequent name changes on 30th June 1970 to 'L A Moore Limited' symbolized our evolution into a well-respected main contractor specializing in demolition and civil engineering projects. Over the years, we have established strong ties with various Local and County Councils, contributing to diverse and significant projects such as earthworks for roads, construction of sea defences, and the development of shopping centres and office complexes, alongside numerous industrial, commercial, and residential buildings.

Today, we take pride in our identity as an established family firm with a formidable reputation for delivering professional and practical solutions tailored to the needs of our clients. Our Management Team is dedicated to upholding the highest standards of Health & Safety, Training, and Development, ensuring that our workforce is well-equipped to handle the complexities of demolition projects. With our combined capabilities, L A Moore Ltd stands as a reliable partner, offering an "all in one" solution that has become synonymous with quality and integrity in the industry.

Where We Are Now

L A Moore Ltd remains a trusted name in the demolition industry, proudly affiliated with the National Federation of Demolition Contractors. This affiliation ensures that our clients are partnering with reliable experts who adhere to the highest standards and requirements. Our commitment to excellence is underscored by our proactive approach to Health and Safety best practices. We place great emphasis on the competency of our employees, bolstered by continual Training and Development initiatives. The low turnover of our staff not only fosters a stable work environment but also guarantees that essential knowledge and experience are retained within our team. In addition, our extensive fleet of plant machinery is readily available for all our projects, enhancing our operational efficiency and capabilities.

L A Moore Ltd has a diverse portfolio, undertaking all types of demolition and refurbishment projects. Our expertise spans soft strip work, asbestos removal, comprehensive site clearance, material crushing, recycling operations, civil engineering tasks, and haulage services. Each of our employees is equipped with certifications such as the CCDO (Certificate of Competence of Demolition Operative) and CPCS (Construction Plant Competence Scheme), ensuring that we maintain a skilled workforce. Furthermore, our various accreditations—including ISO9001, ISO14001, and ISO45001—reflect our commitment to adhering to international quality and environmental management standards.

Environmental stewardship is a cornerstone of our operations at L A Moore Ltd. We prioritize environmental issues and work diligently in accordance with all current legislation, taking necessary steps to safeguard the environment. By providing ample protection against unnecessary exposure to hazards and risks, we demonstrate our dedication to sustainable practices and the well-being of our communities.

Where We Operate

From our strategic base near Wells in Somerset, L A Moore Ltd effectively serves a wide geographical area, covering the Southwest of England, South Wales, Hampshire, Berkshire, and Oxfordshire. Our regional focus allows us to provide exceptional service and expertise to a diverse range of clients, ensuring that we meet their specific demolition, and refurbishment needs with precision and care.

Services Include –

- Asbestos Removal
- Soft Strip & Refurbishment
- Chemical Demolition
- Crushing and Recycling
- Demolition Services
- Site Clearances
- Haulage
- Plant Hire

Demolition is a complex yet essential service that we proudly provide, catering to a diverse range of projects from small-scale domestic renovations to expansive commercial and industrial undertakings. Our comprehensive demolition package ensures that we are equipped to handle any job, no matter the size or scope. With a proven track record, we have successfully completed demolition tasks in both urban and rural settings, encompassing various structures such as offices, factories, warehouses, workshops, waste sites, schools, and hard standings. We recognize that each project presents its own challenges and unique requirements, so we work closely with our clients, fostering collaboration and communication to ensure a safe and efficient execution of all demolition activities.

A critical component of our service offering is asbestos removal, adhering to the highest health and safety standards as prescribed by the Control of Asbestos Regulations 2012. Our team is fully qualified and experienced in managing the removal of both notifiable and non-notifiable asbestos materials. In cases where notifiable asbestos is involved, we partner with a trusted licensed asbestos removal company, maintaining a seamless collaboration to address your specific needs. This meticulous approach not only safeguards the health and safety of our workers and the surrounding community, but also ensures compliance with regulatory requirements.

Additionally, we provide soft strip services designed to create a clean, blank canvas needed for renovation and refurbishment projects. This strip-out service can be executed as a standalone solution within a broader demolition framework, promoting opportunities for recycling and sustainable practices. Our goal is to make the demolition process as smooth and efficient as possible, ultimately preparing the site for its next phase and minimizing environmental impact. Whatever your demolition needs, we are committed to delivering results with precision, safety, and respect for every project we undertake.

At L A Moore Ltd, the safety of our operatives and visitors is not just a priority; it is the foundation upon which we build our projects. We recognize that a safe work environment is essential to delivering quality outcomes and fostering a culture of responsibility. Every aspect of our operations is meticulously aligned with health and safety protocols, ensuring that the well-being of our team and stakeholders is always at the forefront. By instilling a safety-first mindset in our workforce, we empower everyone to prioritize vigilance and proactive measures, creating a secure atmosphere that allows us to focus on what we do best. Health and safety are woven into the fabric of our daily functions at L A Moore Ltd. Each decision we make—the selection of materials, the design of workflows, and the implementation of our innovative strategies—reflects our unwavering commitment to creating a safe working environment. We believe that responsible enabling works not only enhance the quality of our projects but also contribute positively to the communities we serve and the environment we inhabit. By prioritizing health and safety in all our endeavours, we ensure that our teams can work confidently and effectively, making a meaningful impact on every project we undertake.

Our dedication to health and safety extends beyond compliance with regulations; it is a core value that influences our business ethos. We understand that true excellence comes from taking responsibility for our people, which in turn enables us to make significant, sustainable contributions to society. As we continue to grow and innovate, we remain steadfast in our mission to uphold the highest standards of safety, ensuring that every operative and visitor is protected while we carry out our work. At L A Moore Ltd, safe practices are not merely an obligation; they are a fundamental part of our identity and a critical component of our success.

Our mission is to elevate the standards of responsible demolition to ensure that the decisions and actions we take today pave the way for a better tomorrow. In an industry often marred by environmental concerns and safety issues, we believe it is our duty to lead by example and implement practices that prioritize sustainability and community well-being. By utilizing cutting-edge technologies and innovative methodologies, we strive to minimize waste, reduce our carbon footprint, and promote recycling and reuse of materials.

To achieve this, we actively engage with stakeholders at every level, from local communities to legislative bodies, to foster awareness and collaboration. Our commitment to education and transparency empowers not just our team but also the broader community to understand the importance of responsible demolition. We believe that every structure dismantled carries the potential for regeneration, and each project is an opportunity to reflect our values and create lasting positive impacts.

As we work to raise these standards, we are driven by the vision of a future where demolition is synonymous with regeneration, sustainability, and respect for human and environmental health. Each project we undertake is a stepping stone toward a legacy of conscientious practices that protect our planet and its resources for generations to come. By championing responsible demolition, we are not just tearing down structures; we are building a foundation for a more sustainable and equitable world.
